Experience

UIUX Designer at Wander.live

May 2023 - December 2024

Worked with cross-functional teams including developers, designers, and the founder to ensure efficient delivery of the product.

- Generated new ideas, elements, and flows to improve current features such as the usage of emojis and calendar feature
- Conducted usability tests to validate new features
- Redesigned old pages and UI elements

UIUX Designer at Swordpoint Studios

April 2022 - May 2022

Collaborated with a designer to redesign the business website to improve user retention and product conversion

- Conducted a competitive analysis with three different websites to understand current pain points and generate new ideas
- Changed the website's user flow and elements and made it more accessible to users
- Created a mood board that was approved and implemented to improve the website's appearance

Hackathon

Protothon by DubsTech

May 2024

Collaborated with four designers to create an app for firefighters to utilize to be more efficient in times of emergency

- Conducted a competitive analysis with two other similar apps
- Designed a mood board and created UI elements
- Applied iterations after feedback

Project

UIUX Designer for GalleryPal

May 2016 - Apr 2017

Conducted a five-day Google Ventures Design sprint from ideation to prototype.

- Analyzed existing data to define the problem and propose a solution
- Created both low and high fidelity frames
- Led five usability tests and iterations based on feedback
